

# Oh baby!

We have an assignment for you. Yes, we are giving you homework already :) By the first day of school, find a baby picture of yourself. Be sure to write your name on the back of it. Let your parents know the picture will not be damaged in any way. Bring it with you the first day of school. Do not show this picture to other students. It will be displayed on a bulletin board.

\*\*\*\* Don't forget to bring in your *Summer Reading* form with you the first day of school.\*\*\*\*

## SIXTH GRADE

## SURVIVAL GUIDE

## 2019-2020

---

# Welcome to Sixth Grade

Hey new sixth grader! It is hard to believe that the start of summer is just around the corner. To help you prepare for next year we are providing this brochure filled with information to help you easily transition to sixth grade.

First, let's talk about some of the cool activities that you have to look forward to. In the fall, we will be having a *Reading Celebration* at the Millersville Pool and will do the *Pumpkin Investigation*. During the winter, we will spend time learning about weather forecasting and severe weather systems. Spring will be jammed packed with a variety of activities such as the district-wide Track and Field Day and Celebration/Fun Day. As you can see, sixth grade is going to be a great year!

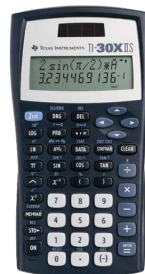

In addition to all of the fun activities we do in the classroom, you will have an opportunity to participate in many school responsibilities. You might want to be a morning announcer, birthday singer, or a peer helper. There is something for everyone.

We hope you are looking forward to sixth grade. It is going to be an exciting year!

As we end the school year and head into the next, we are asking for your assistance in helping to provide a few supplies for you to use throughout the sixth grade year. It is our hope that by having this list early, it will aid in “Back to School” shopping. Thank you for supporting our school.

- Pencil box
- Pack of colored pencils or markers
- 2 glue sticks
- Pencils - enough to get you through the school year
- 1 1/2 inch 3 ring binder
- Calculator - Texas Instrument TI-30X Scientific Calculator

(Students will have the option to borrow a calculator from the school if they choose not to purchase their own.)

# About Your Teachers

Mrs. Johnson has been teaching sixth grade for 23 years (Can't tell by looking at her, can you?), and she is looking forward to another great year. In her free time, she enjoys reading and cooking. She also loves spending time with her two boys. Cole, who is almost 13 years old, loves to play baseball and make music. Quinn, who is 8 years old, loves riding bike and to read. This summer Mrs. Johnson is looking forward to reading books with her boys and vacationing at the beach with her family.

Mrs. Mitchell just finished her 17th year of teaching. She has survived many years teaching with Mrs. Johnson. (Although each year she spends more money at the salon covering those pesky greys.) She has survived many years with her; you will be able to survive one! In her free time, she loves to bake, sit by the pool and watch her kids swim, and be outdoors. Her daughter Madeline is 14 and enjoys playing softball and is an excellent baking partner. Brady, who is 12, loves to play baseball and is a Boy Scout Over the summer, Mrs. Mitchell and her family enjoy going to Hersheypark a lot, taking day trips, and spending a week at the beach.
