Why go to college? A higher education introduces students to new people and new experiences, and usually leads to a higher salary and lower chance of unemployment. This checklist will tell you how to get ready for college—and how the government will help you pay for it.

How to use the checklist

Q: Who should use the checklist?

A: Students of all ages who haven't attended college, and parents of students in elementary and secondary school.

Q: What is the checklist?

A: A “to do” list, starting with elementary school, to help students prepare academically and financially for education beyond high school. Each section is split into subsections for students and parents, explaining what to do and which publications or websites might be useful to them.

Q: When should a student or parent refer to the checklist?

A: At the beginning of every school year, and then more frequently as college approaches.

GETTING A LATE START?

Just decided that you want to go to college, but school starts soon? Too late to do all the checklist items in this document? Here is your “must do” list.

If School Starts Next Month

- () Apply for financial aid using the *Free Application for Federal Student Aid* (FAFSASM). Turn to “FAFSA Filing Time” on page 22 of this checklist, and follow the steps there to apply for federal, state, and school funding.
- () Ask the school you plan to attend what other financial help they can offer you: Do they have last-minute scholarships or payment plans available? Can you get a job on campus?
- () Be sure to keep in touch with the school regarding any paperwork you need to turn in.

If School Starts Next Week

- () Fill out your FAFSA immediately at **www.fafsa.gov**. The site has many options, including live chat with a customer service representative, to assist you as you complete the application.
- () Talk to the financial aid office staff at the school you plan to attend. Ask whether there are other forms you need to complete, and find out how and when you will receive your financial aid.

MONEY FOR COLLEGE

FEDERAL STUDENT AID

What Is Federal Student Aid?

Federal student aid comes from the federal government—specifically, the U.S. Department of Education. It's money that helps a student pay for education expenses at a college, career school, or graduate school.

Federal student aid covers such expenses as tuition and fees, room and board, books and supplies, and transportation. Aid also can help pay for a computer and for dependent care.

There are three main categories of federal student aid:

- **Grant**—Grant money usually doesn't have to be repaid. Most U.S. Department of Education grants are based on the student's financial need.
- **Work-study**—Work-study money is earned by a student through a job on or near campus while attending school and does not have to be repaid.
- **Loan**—Loan money must be repaid with interest.

*For details about the federal student aid programs, including maximum annual amounts and loan interest rates, visit **StudentAid.gov/types**.*

Why Get a Federal Student Loan?

*Federal student loans offer low fixed interest rates; income-based repayment plans; loan forgiveness; and deferment (postponement of repayment) options, including deferment of loan payments when a student returns to school. Generally, repayment of a federal loan does not begin until after the student leaves school. And did you know that a student receiving a federal loan does not need a credit history or a cosigner? Private loans from banks often do not offer such benefits. So if you need to borrow money to pay for college or career school, start with federal student loans. More information is available at **StudentAid.gov/federal-vs-private**.*

Who Gets Federal Student Aid?

Our most basic eligibility requirements are that you must

- demonstrate financial need (for most programs);
- be a U.S. citizen or an eligible noncitizen;
- have a valid Social Security number;
- be registered with Selective Service if you're a male (you must register between the ages of 18 and 25);
- be enrolled or accepted for enrollment as a regular student in an eligible degree or certificate program;
- be enrolled at least half-time to be eligible for Direct Loan Program funds;
- maintain satisfactory academic progress in college;
- sign statements on the *Free Application for Federal Student Aid* (FAFSASM) stating that
 - you are not in default on a federal student loan and do not owe money on a federal student grant, and
 - you will use federal student aid only for educational purposes;
- show you're qualified to obtain a postsecondary education by
 - having a high school diploma or General Educational Development (GED) certificate or
 - completing a high school education in a homeschool setting approved under state law.

For an early estimate of how much federal student aid you might be able to get, use *FAFSA4caster* at www.fafsa4caster.ed.gov. For more details about our eligibility criteria, visit StudentAid.gov/eligibility.

How Do You Apply for Federal Student Aid?

Refer to “FAFSA Filing Time” on page 22 of this checklist for a step-by-step guide to filling out the FAFSA.

MORE SOURCES OF STUDENT AID

The U.S. Department of Education is the main source of financial aid for college, but it isn't the only source.

- Visit **StudentAid.gov/types#federal-aid** to find out about education funding available from other federal agencies.
- Visit **www.ed.gov/sgt** to find out about money available from state governments.
- Visit a college's website or ask its financial aid office about money the school offers its students.
- Read the rest of this page to learn where to look for scholarships from sources other than those listed above.

Finding Scholarships

Everyone wants free money to help them attend college. There are many types of scholarships (they don't all require that you have outstanding grades!), and they are provided by many different organizations. Each scholarship provider has its own application and its own rules to decide who can get its scholarship. Your job is to find scholarships for which you think you might qualify and to apply by the deadlines.

And remember: There is no "secret" scholarship money out there. You don't need to pay a consultant or join a society just because they say they can help you find scholarships. You can find them yourself and save some money. Here are some free sources of information:

- () the U.S. Department of Labor's FREE online scholarship search at **www.careerinfonet.org/scholarshipsearch**
- () a high school, Upward Bound, or Talent Search counselor
- () your library's reference section
- () foundations, religious or community organizations, local businesses, or civic groups
- () organizations (including professional associations) related to your field of interest
- () ethnicity-based organizations
- () your employer or your parents' (parent's) employers (employer)

FAFSASM FILING TIME

Students

You must complete and submit the *Free Application for Federal Student Aid* (FAFSASM) to apply for federal student aid—that’s government money for college or career school. Financial aid offices use information from the FAFSA to determine whether you are eligible to receive federal grants, loans, or work-study funds. States and schools also use the information from the FAFSA to determine whether you qualify for additional aid. In fact, some schools won’t consider a student for the school’s merit scholarships until the student has submitted a FAFSA. So be sure to fill out a FAFSA even if you think you won’t qualify for federal aid.

DEADLINES

*If you want to be considered for aid from your state or college, you must meet its FAFSA deadline. If you plan to go to college in the fall, your state financial aid deadline is probably going to be between March and May; and your college financial aid deadline may be as early as February. The FAFSA site at **www.fafsa.gov** lists many state deadlines and tells you how to find yours if it’s not listed. For a college’s FAFSA deadline, check the school’s website or contact its financial aid office.*

TO DO:

- () Get free information and help from your school counselor, the financial aid office at the college you

plan to attend, or the U.S. Department of Education at **www.fafsa.gov** or 1-800-4-FED-AID (1-800-433-3243). Free help is available any time during the application process. You should never have to pay for help.

- () Optional: If you think the Social Security Administration might have the wrong name or date of birth for you in its records, go to **www.ssa.gov** to find out how to correct any errors. Your information must be correct before your FAFSA can be processed.
- () Collect the documents needed to apply. If you've already filed your taxes, you may be able to have the FAFSA automatically retrieve information from your tax return. Tax return not completed at the time you apply? Estimate the tax information, apply, and finalize information later. Here are some items you might need:
 - Your Social Security number and your parents' Social Security numbers if you are providing parent information
 - Your Alien Registration Number if you are not a U.S. citizen
 - Information on savings, investments, and business assets for yourself (and for your parents if you are providing parent information)
- () Submit the FAFSA in time to meet school and state aid deadlines. Here are the ways you can complete the FAFSA:
 - Apply online (the fastest and easiest way) by going to **www.fafsa.gov**.
 - Download a PDF version of the FAFSA at **www.fafsa.gov**. Fill out the PDF and mail it to the address on the form.
 - Ask the financial aid staff at the college you plan to attend whether you may fill out the FAFSA with their help and have them submit it for you.
 - Visit **www.edpubs.gov** to order a paper FAFSA.
- () Review your *Student Aid Report* (SAR)—the result of your FAFSA. You will receive your SAR by e-mail or by mail. If necessary, make changes or corrections and submit your information for reprocessing. Your complete, correct SAR will contain your Expected Family Contribution (EFC)—the index number used by colleges to determine how much federal student aid you can receive. If you do not receive your SAR within three weeks of submitting your FAFSA, go to **www.fafsa.gov** and log in to check the status of your FAFSA, or you may call 1-800-4-FED-AID.

- () Your school might request additional information from you. Be sure to respond by any deadlines, or you might not receive federal student aid.
- () **All applicants:** Contact the financial aid office if you have any questions about the aid being offered.
- () **First-time applicants:** Review award letters from schools to compare amounts and types of aid being offered. Decide which school to attend based on a combination of (a) how well the school suits your needs and (b) its affordability after all aid is taken into account.
- () Keep in touch with the school you've chosen to find out when tuition and fees are due, whether your financial aid will cover those expenses completely, and how much (if any) extra financial aid will come directly to you once your tuition and fees are paid.
- () Pay special attention to letters or e-mails from schools, and contact the financial aid office if you do not understand what the school is offering you.
- () Follow all directions on the FAFSA and on any communications from your school.

Parents

TO DO:

- () File taxes as early as possible, but don't delay the FAFSA due to your taxes not being done. It's okay to estimate your financial information on the FAFSA; you just need to finalize it later.
- () Complete the "Students: To Do" list on pages 22–24 of this checklist with your child. If possible, file the FAFSA online—it's much faster and easier, and your information is safe because it's encrypted (i.e., we use a mathematical formula to scramble the data).
