

LIVE EVENT CAREER EXPLORATION DAY

WITH:

MAY 2ND
9AM-1PM
POD 2

Do you know a determined arts student [in either theatre or fine arts?]

Or, maybe, an AP STEM student with an interest in unconventional job opportunities?

What about a dedicated vocational student who thinks outside of the box?

Live Event production is a technical, creative, fast-paced industry, with opportunities for individuals with various education levels. With careers ranging from design to engineering, manufacturing to finance, marketing to management, together, we build and create live experience for audiences of all types.

Looking for engaged and reliable high school juniors and seniors who would appreciate learning more about opportunities off the beaten path, to come experience a hands-on Career Exploration Day, to learn about the Live Event Industry. Lunch and transportation provided.

Interested students should submit 1-3 paragraphs on why they would like to attend. Please share with students who would appreciate spending the day with the Rock Lititz Community.

Applications due March 15.
Students will be notified April 5.
